

TRI  **DIM**

FILTER CORPORATION

GOVERNMENTAL AGENCIES

GSA CONTRACT NUMBER GS-07F-0529U

GSA CONTRACT INFORMATION

Tri-Dim Filter Corporation wants to welcome all potential Government customers to "your" special GSA pricing. Tri-Dim has been awarded a GSA number GS-07F-0529U, which allows you to obtain product at a pre-negotiated pricing agreement the GSA contracting officer has determined is fair and reasonable based on FAR (Federal Acquisitions Regulations) guidelines.

The easiest way to order is to log on to "GSA Advantage" (<http://www.gsadvantage.gov>) then enter our name Tri-Dim Filter Corporation or our GSA# GS-07F-0529U. This will take you to our electronic catalogue that is divided into sections which covers our various types and efficiencies of ventilation filtration products. You may then make your selection using "Advantage" procedures or you may call us and use your Government credit card. We also take Government purchase order numbers for orders exceeding your card threshold.

Our geographic coverage is the 50 states, Puerto Rico, Washington D.C., and U.S. territories.

Our standard lead-time is 7-14 days after receipt of your order or sooner. Arrangements for expedited deliveries can be made.

Under a special category our GSA contract also covers filter removal and installation, coil and duct cleaning, mold remediation, plus air and water testing. Tri-Dim has also been authorized to provide product and services during disaster recoveries.

Tri-Dim is proud to be an ENERGY STAR® Partner offering many unique and innovative products and services to help save our clients energy and to achieve their Sustainability goals.

We at Tri-Dim Filter Corporation hope you take advantage of this unique buying opportunity that benefits our Government and private industry.

Please feel free to call your sales representative for further assistance

PRODUCT OVERVIEW

Tri-Dim Filter Corporation is a full line manufacturer of HVAC filtration products. Tri-Dim utilizes a stringent ISO Compliant Quality System that ensures only the highest quality product leaves our facilities. Tri-Dim's product line ranges from Cleanroom Filtration to roughing or prefilters.

Tri-Dim's prefilter offering includes Pleated air filters as well as Panel and Cube filters that offer superior performance and a longer service life when compared to other prefilter options. Panel and Cube filters also prevent the bypass of unfiltered air by 'self-gasketing'.

Tri-Dim also offers a full line of high efficiency final filters that range from traditional Rigid filters, Bag filters (both fiberglass and synthetic) and ASHRAE Cell filters. The PREDATOR series of V-Cell filters offers high efficiency, low resistance and long service life. Tri-Dim's Syn-Pac XLII Bag filters offer a real world solution to the problem of efficiency degradation found in synthetic medias.

In addition a complete line of Gas Phase Filtration products is available from pleated filters to carbon trays and bulk carbon. Tri-Dim's Tri-Sorb V filter features 36 lbs of carbon in a 24x24x12 and a low initial resistance of 0.50"V.G.

Tri-Dim also manufactures a complete line of HEPA filtration products. This includes the TRI-PURE HT that is designed for use in high temperature applications up to 500°F (260°C). The TRI-PURE 2000 is a mini-pleat V-Cell HEPA filter that offers extremely low resistance at 500 FPM. The TRI-PURE 2000 is available in both gasket and gel seal models.

A complete line of ultra pure Cleanroom HEPA and ULPA filtration products is also offered. The TRI-PURE Terminal Module is disposable and offers a compact footprint and high efficiency.

Tri-Dim's Environmental Series offers innovative solutions to today's demanding Sustainability Initiatives. Tri-Dek E Panels offer many "Sustainability" features such as no metal construction, recycled content and LEED Credits.

Tri-Pleat™ Pleated Filters

Tri-Dek® Panel & Link Filters

Syn-Pac™ Bag Filters

Tri-Cube™ Cube Filters

Tri-Sorb™ V Carbon

Predator II V-Cell Filters

Tri-Pure™ 2000 HEPA Filters

Tri-Pure™ HT HEPA Filters

Tri-Pure™ Terminal Modules

Tri-Dek® E Panels

PURIFICATION EQUIPMENT

Tri-Dim offers a wide range of air purification equipment for use in most every application.

Applications for the use of IDT equipment range from achieving negative pressure and HEPA-filtered exhaust air in TB rooms in medical facilities, oil mist removal in metal fabrication shops, positive pressure clean areas in manufacturing facilities, Environmental Tobacco Smoke (ETS) control in public areas to Asbestos Abatement equipment just to name a few.

Tri-Dim's IDT Division offers the unique combination of expertise, custom engineered solutions and innovative products to solve a broad range of decontamination issues. Industries that commonly utilize IDT's equipment are commercial, metal working industries, medical, restaurants, industrial, laboratories, pharmaceutical, microelectronic, food processing, construction, abatement, etc.

IAQ SERVICE

Tri-Dim's IET Service Division provides an extensive list of services to our clients – see partial list below:

- Vacuum Truck Services
- Industrial Cleaning
- Paint Booth / Oven Abatement Services
- Air Quality Testing
- Filter Changing Service
- Mold Remediation
- High Reach Cleaning
- AHU Cleaning / Refurbishment
- Fire Restoration
- Air Conveyance System Cleaning
- Mechanical Condition Assessment
- Environmental Testing
- Ventilation System Cleaning and Hygiene

LP-1000 Low Profile Air Cleaner

Tri-Mist 500 Mist Elimination System

Tri-Dim Filter Corporation is committed to continual product development – all descriptions, specifications and performance data are subject to change without notice.

Tri-Dim products are manufactured to exacting criteria - there can be a $\pm 5\%$ variance in filter performance.

Tri-Dim® and Tri-Dek® are Registered Trademarks of Tri-Dim Filter Corporation. Tri-Pure™ is a Trademark of Tri-Dim Filter Corporation.
