Tri-Dim's strong commitment to indoor air quality has led to the development of state-of-the-art air cleaning equipment. The IDT division has a full line of HEPA air cleaners used in medical facilities, food processing plants, commercial buildings and industrial facilities worldwide. Our ACCU portable HEPA air cleaners set the standard in the abatement and construction industry.

Recently, the IDT division introduced a new mist collector for the metal working industry. The Tri-Mist 500 incorporates new technology that is effective on all metal working fluids, and is unequalled for its high efficiency, low maintenance and compact design.

ACCU HEPA / Bottling Application

## ADDITIONAL VALUE ADDED SERVICES

### FILTER AND IAQ ASSESSMENT

Tri-Dim offers a complementary assessment by a factory-trained sales professional to document your current conditions and offer upgrades in your program that will improve efficiencies and save money.

### SEMINARS AND EDUCATION PROGRAMS
