

ENVIRONMENTAL, HEALTH & SAFETY POLICY

TRI-DIM Filter Corporation is committed to protecting the health and safety of its employees, and to operating our business in an environmentally responsible manner. We strive to improve our environmental, health and safety performance by assessing our current situation, maintaining awareness of new EH&S advancements, laws and regulations, and implementing cost-effective improvements. TRI-DIM Filter Corporation is committed to:

- Providing safe working conditions;
- Promoting the health and well-being of our employees;
- Providing adequate safeguards and engineering controls for safe operations;
- Educating employees in safe work practices and environmental protection measures;
- Leading by example and driving employee awareness and ownership for all environmental, health and safety standards;
- Establishing EH&S goals, standards and work procedures into our operating practices that support TRI-DIM's commitment to improved EH&S performance;
- Meeting or exceeding the requirements defined by applicable environmental, health and safety laws, regulations and company standards;
- Actively pursuing waste and emission reductions to the air, land and water through recycling and other measures that reduce environmental impacts and conserve natural resources;
- Seeking suppliers and vendors dedicated to environmental, health and safety responsibility;
- Maintaining proper EHS resources to assure accountability is established to meet this Policy.
